

Minerva Engineering

Supports the Wounded Warriors Day on the Bay Event

Hanover, MD – August 19, 2017

On Saturday, August 19th, the North Point Yacht Club (NPYC) hosted the 4th Annual Wounded Warrior Day on the Bay Event. Minerva Engineering was a Commodore level sponsor to this worthy event supporting America's disabled veterans and their families. This year, 40 boats and 200 disabled veterans and their families participated and \$40,000 was collected to support the charity! This event also supported other charities including Frogmen Outdoors (for disabled Navy Seals and Special Operators) and Fisher House for housing disabled veterans.

Every year, Minerva Engineering teams up with the NPYC to provide a day of fun, sun and water out on the Chesapeake Bay for disabled vets and their families. The day starts with a salute to our honored guests and the Baltimore Ravens cheerleaders were on hand to kick off the ceremony. The ship captains created a reception salute for the disabled veterans, each veteran received a \$250 gas card and another for Wal-Mart while their kids received special "fun boxes". There was a dunk tank, games and face-painting Mission BBQ was on hand to provide a fantastic array of foods for everyone and afterwards, a crab and shrimp feast featured all you can eat Chesapeake Bay Crabs and shrimp.

Minerva is proud to stand with the Wounded Warrior Project and the North Point Yacht Club in providing some well-deserved fun to America's disabled veterans and looks forward to future opportunities to ease their burdens and those of their families.

Minerva Engineering, a Department of Defense Nunn-Perry Award winner, is a certified Service-Disabled Veteran-Owned Small Business (SDVOSB) providing information security products and services that support defense-in-depth strategies featuring technologies and processes to harden, defend and secure complex systems for the Intelligence Community, Department of Defense and other federal agencies.
