

## Minerva Engineering

### Wins Specialized Technical Assistance Contract

Hanover, MD – October 1, 2017

Minerva Engineering announced today that it has won a competitive award supporting the Department of Defense in the management of requests for technical assistance in highly specialized technical and operational areas pertinent to a wide variety of DoD, Intelligence Community and Federal Agency missions.

This single year award, fixed price contract will require Minerva Engineering to develop and implement process improvements, capture metrics on requests, generate reports, develop briefings, maintain timely and accurate records and engage with external customers and organizations on a daily basis to provide seamless coordination between all customer interface functions. Because of the broad nature of the types of requests that may come from external customers, a key part of Minerva's role will be to leverage our exceptional understanding of the highly specialized technical and operational areas to ensure the most accurate and timely responses to the various requesting organizations.

All work on this contract will be performed in and around the Columbia, MD area at government locations.

Minerva Engineering, a Department of Defense Nunn-Perry Award winner, is a certified Service-Disabled Veteran-Owned Small Business (SDVOSB) providing information security products and services that support defense-in-depth strategies featuring technologies and processes to harden, defend and secure complex systems for the Intelligence Community, Department of Defense and other federal agencies.

Minerva Engineering, an Equal Opportunity Employer with a robust benefits program, is headquartered in Hanover, MD and is hiring for a large variety of open positions. For more information, visit [www.minervaengineering.com](http://www.minervaengineering.com).
